THE CHAIRMAN'S BOARD

✓ The Lore and The Lure of the Legends!

Nothing becomes a legend more than the ability to attract (and to connect with) a vast, diverse audience over the span of multiple generations. Consequently, in this age of artificially created American idols, where borderline freaks and oddballs flail about in a battle for 15-minutes of fleeting notoriety, one can't help yearning for the days of *authentic* musical stars and their timeless artistry. Indeed, studies have proven that the genuine appeal of these show biz icons has never waned, and in fact, has been expanding more rapidly as we pass further away from that vaunted era when a TRUE star could step onto a stage and command an audience for 2 hours *without* relying upon the shallow spectacles of garish pyrotechnics, gaudy costumes, vulgar antics, and obscenities.

The small cadre of revered performers with this rare, magnetic ability are members of an elite club known as "The Chairman's Board." Many (such as Crosby and Garland) are long gone, but are more popular (and sell more product) now than when they were alive. Others who are still around (such as Bennett and Mathis) continue to be relevant trend-setters with thriving careers and legions of loyal fans of all ages. Each beloved member of "The Chairman's Board" has a unique, inspiring story of success and a time-tested musical legacy that is unrivaled by even the best of today's performers. In short, "The Chairman's Board" represents the highest standard for classy entertainment and musical excellence ever known, and through the extraordinary talents of America's acclaimed Pop Standards Sensation Peter Oprisko, they can all be savored via this awesome concert presentation!

✓ Meet the Board Members!
